## Tamper-Evident & Shrink Sleeve Packaging

**Speed To Market. Product Development.  
Quality. Customer Service.**

### Preformed Shrink Bands

Preformed Shrink Bands provide a secure, tamper-evident seal that quickly and easily molds around your products packaging in virtually any shaped design.

Applied manually, preforms are pre-molded to the specific shape of your container to form a "lip" and "skirt", making placement on your product fast and efficient.

### Printed Shrink Sleeves

Heat shrink cut & printed sleeve labels offer a more flexible and cost-effective alternative to printed containers or pressure sensitive labels.

For immeasurable shelf presence in coolers, on shelves, kiosk or end-aisle displays, printed sleeves allow a comprehensive and total marketing and packaging solution.

**50% Faster lead times  
than the industry average.**
